

Parallel Universes

In 2001 I had my first visions as related to **NuVoWay LifeStyle Centres** (with 8 courts each of racquetball, squash, tennis and badminton/short tennis, 8 table tennis tables, a cutting edge fitness centre and sports bar/resto with 4 golf simulators) and **G3 Golf 36 Hole Championship Layouts** (with sports bar/resto with 4 golf simulators). In subsequent years I developed this vision, seeing greater than 250 of each of these areas by 2030 and 10,000 such facilities across the world by 2050.

In the natural, in this universe, nothing happened. This doesn't mean that nothing happened. What I have come to understand is that with every decision we make a new universe breaks away and follows that decision. Imagine if immediately following my outlining the LifeStyle Centres and Golf Layouts, people with the finances and interest set forth towards developing these facilities all across the world. By July 1, 2025, we would be nearing 25 years of potential developments in parallel earths. This would mean that in these parallel earths there may well be nearing the 10,000 **G3 Destination Locations** I envision for 2050!

That sets the table! If parallel universes, parallel earths and an infinite number of 'twinselves' do exist, the likelihood is that in many of these universes there are a huge number of facilities. The question then becomes; 'how do we get to these parallel universes?' The answer is transcendence. Actually, we are already going between parallel universes in the normal course of our days at present.

My distinct belief is that all will not transcend to these amazing parallel earths. Those who do not believe and of lower consciousness will have to wait until their consciousness grows towards transcendence. As a matter of fact, I believe it is already happening! I have set a firm date. Many people will see me as a failure as they will remain on this earth on July 1, 2025. A great many more will transcend to this new reality, where there will be no form of currency (a Moneyless Society), peace and love will reign supreme, all of mankind will be equal, basically, everything which John Lennon sung about in Imagine will be realized! Thank you John!

The predictions I have made for July 1, 2025 include the following:

- There will be **G3 Destination Locations** developed down to every city in every country across the world (approximately 10,000). NuVoWay LifeStyle Centres and G3 Golf Championship Layouts *will be available to everyone at no cost!*
- **Come Away With Me. The ongoing story of the life of Ross Harvey** will open in theatres and streaming video in all areas across the world. It will be free to all! In one week from opening, the movie will have been watch by in excess of 1 billion people - the largest box office success in movie history!
