

Dearest Noel,

Please be quick to bring Christy and I all that you have promised us:

- Our house at 270 Senneville Road
- Our green Hill HX50 helicopter
- Christy's Lexus Limo - with at least 10 seats
- My Aston Martin DBX 707
- Lots and lots of horses all around us in Senneville - Grand Blanc for Christy. Peacocks.
- Our penthouse suite at the G3 Luxury Hotel on St. Jacques
- Our amazing space at Oz North at Mountain Acres

As compensation - we know you plan to make us the wealthiest people in the world - but we ask that rather than this that you bring a Moneyless Economy (MLE) to the entire world in order that every one of your creations may share in your bounty.

Also, please bring to Christy immediately a reflexologist and either Osteopath or Physiatrist - or even better - please work supernaturally through me to bring Christy complete freedom from her pain and remove the necessity of taking her pain pills daily.

Christy would like complete vindication from everything that has transpired in her life since the accident in 1988 - and her misdiagnosis. Please bring supernatural healing to this entire area - so that there is no need for lawyers. Please use her first movie - Striking Back - using Akashic Records— to do everything necessary for this vindication.

The one other thing I ask of you is to please move this world forward - so that we can see all the beauty I have created through the initiatives I have developed in these last 40+ years - and so that all of mankind may benefit from all the products and services afforded by these initiatives.

With our utmost thanks and love,

Christy and Ross
